Summer Opportunity to Achieve Readiness

The Ouachita Parish School System is offering a “free” summer learning program (S.O.A.R.) designed to address unfinished and missed educational opportunities in the context of new learning for current Kindergarten – 8<sup>th</sup> grade students. High quality Tier I math and ELA curriculum, along with other great opportunities for students to expand and demonstrate their skills and talent through art, music, physical education, and STEM activities, are featured components of our program.

*Come S.O.A.R. to new heights this summer as students experience the joy of learning!*
